We cannot and do not under any circumstances guarantee either a stand or crop, because soil, weather, season, moisture and proper soil preparation are beyond our control. EARL MAY'S SUPER FLOCK MATING WHITE LEGHORNS

Made possible by my many years of trapnesting. Big Type Leghorns that will lay big eggs and a lot of them. The females in this mating are not
under trapnest but their ancestors were. The males are all big husky fellows, individually pedigreed, from hens that laid from 250 to 300 eggs.
These males were bred and raised on my own trapnest pedigree farm and I furnished them free of charge to my flockowners. I did this in order
to have perfect confidence in the breeding and blood lines back of these chicks.
